DAZZLING

18" Alloy Wheels

A Slimline design that enhances road presence

LED COMBINATION HEADLIGHTS

Automatic dusk sensing LED headlights, Daytime running lights and turn signals make for one stylish functional package

LED FOG LIGHTS

Adds presence to the grille to brilliantly illuminate the path in foggy conditions

REVISED LED GRAPHIC ON THE TAILLIGHTS

REVISED FRONT BUMPER GRILLE

Adopts a squared off shape appearing slightly narrower

BLACK LEATHERETTE SEATS WITH FABRIC

A classic touch that never goes out of style and comfortable enough for any climate

A New generation of self- charging

HYBRID

e:HEV

The eHEV intelligent hybrid system switches between 3 modes to give optimal performance ECO, SPORT, NORMAL

ELECTRIC DRIVE
Delivers instantaneous acceleration from stationary using the energy stored in its battery

HYBRID DRIVE
The Petrol engine and electric motors work together to provide a joyful driving experience

ENGINE DRIVE
Uses Petrol engine to help maintain high speeds while also charging the battery at the same time

Hands-Free Power Tailgate with walk away close

Open and close your boot with a gentle kick of your foot. And walk away with confidence, knowing that your car will be locked and secure.

VOILA

9 Inch Touchscreen with Android Auto and Wireless Apple CarPlay

Get directions, make calls and interact with some of your favourite apps - all while staying focused on the road

Dual-Zone Climate Control with Rear Vents

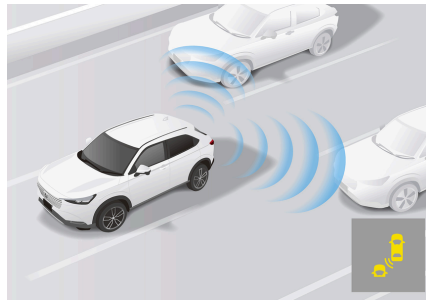

Individual zones keep your friends and fur babies nice and comfy. And with clever L shaped vents, it will feel more like a gentle breeze than a gust to the face

Multi Angle Reversing Camera with Dynamic Guidelines

Get a better view of what's behind you with normal, top-down and wide angles. Plus, Dynamic guidelines based on where your wheels are pointing.

A few extra touches....

Blind spot information

Steering Wheel Mounted controls

Honda SENSING

Lane Keeping Assist System (LKAS)

Get directions, make calls and interact with some of your favourite apps - all while staying focused on the road

Lane Departure Warning (LDW)

When the vehicle enters the warning area, the LDW alerts you with slight steering wheel vibration as well as a warning display

Forward Collision Warning (FCW)

Alerts you when it detects the possibility of your vehicle colliding with the vehicle in front of yours.

Traffic Sign Recognition System

Reminds you of certain road sign information such as the current speed limit your vehicle has just passed through, showing it on the gauge.

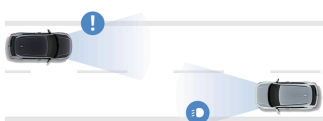

Road Departure Mitigation System (RDM)

Alerts and helps to assist you when the system detects a possibility of your vehicle unintentionally crossing over detected lane markings or approaching the outer edge of the road surface or a detected oncoming vehicle

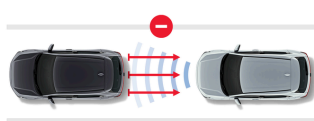

Adaptive Cruise Control (ACC) with Low Speed Follow (LSF)

Helps maintain a constant vehicle speed and a set following interval behind a vehicle detected ahead of yours, and if the detected vehicle comes to a stop, can decelerate and stop your vehicle.

High Beam Support System

Automatically changes your headlights from low to high on a clear road and then back to low beam when an oncoming vehicle is detected

Collision Mitigation Braking System

CMBS is designed to alert you when a potential front collision is determined as well as to reduce your vehicle speed to help minimise collision severity when a collision is deemed unavoidable
